## 4. ASSEMBLY

- 4.1 Remove trolley from the box and unlock the trolley with the keys attached. Slide the top of the main storage area open and remove all parts, check contents against contents list, if any parts are missing contact your local Sealey dealer immediately. Close the top storage area and lock the trolley before assembly.
- 4.2 Each wheel is mounted to a reinforcing plate on the underside of each corner of the tray. The reinforcing plates have a raised area at one end which fits into a square hole on the mounting plate of each wheel. Bolt the two fixed wheels (E) to one end of the bottom tray (D) using two M12 nuts (H) as shown in fig.3. Bolt the two castors (F) to the other end of the tray using two M12 nuts (H).

fig.3

- 4.3 Attach the four upright pillars (B) to the bottom tray (D) using two bolts (G) for each pillar as shown above. Ensure the pillars are the right way up with two holes at the bottom and six holes at the top. The bolts screw directly into threaded inserts attached to the tray.
- 4.4 With the help of another person, position the upper tray unit within the top of the four pillars and fix it by screwing four bolts into the threaded inserts at each end of the trolley as shown in fig.4. Do not use the bolt position second from the top. Further secure the unit by inserting a further six bolts on the front and back of the unit. The lowest bolt positions are adjacent to the bottom draw.
