

Secure on site work station for storing anything from power tools to PPE and fixings

## SITESTATION™

- Keyed-alike 2-point tamper-proof locking system
- Optional power supply and light
- Gas Struts on both sides of top compartment
- Full-width shelves in both lower and upper compartments
- Slanted, folding work surface with lockable concealed storage area
- Robust construction giving maximum protection
- Pockets on doors for smaller components
- Fork Skids with fixing slots

Designed to be used on site as a workstation, for storing everything from power tools to PPE and fixings. With two main compartments, your equipment can stay safe, secure and accessible at all times. The top section contains a folding slanted work surface, ideal for displaying plans, which when shut provides an extra secure area. Optional extras are available including castors to make it mobile, or an internal light and power supply. Many have proven the benefit of this innovative new product, and it is the only answer to many security issues on site.

Product Code	Description	Weight	External Dimensions W x D x H (mm)	Internal Dimensions W x D x H (mm)
