# 4. CHARGING

- 4.1. The battery fitted to this light is considered to be a consumable item and its ability to accept charge will reduce over time. We will warranty it against mechanical and electrical defect for a period of one year, this does not cover fair wear and tear. If the battery is not properly charged before first use, or regularly conditioned, its capacity will diminish. Under these circumstances we will not replace the battery even if it is less than one year old.
- **4.2.** Connect the charger into the charge port on the light. Plug into power supply and turn on, the green charge indicator LED on the light will flash as the battery charges. When fully charged the three LEDs turns to continuous green.
- 4.3. Charge the battery for 4-5 hours for its initial charge. Normal charge time is approx 4hrs. Disconnect from mains supply.
- **NOTE**: The Lithium battery does not suffer from memory effect and once fully charged may be stored for up to six months without another charge.

## 5. OPERATION

**NOTE:** If you leave the light on one setting for more than 20 seconds, the subsequent press will turn the light off. If you then quickly press the power button again the light will come back on at the last known setting.

- **5.1.** First press: top spot light on
- **5.2.** Second press: front light, half power.
- **5.3.** Third press: front light, full power.
- **5.4.** Fourth press: Rear light, half power.
- 5.5. Fifth press: Rear light, full power.
- **5.6.** Sixth press: Off.
- **5.7.** Fully charge the light before storage.

## 6. MAINTENANCE

- 6.1. Keep light clean with a damp cloth (DO NOT use solvents) and check for damage before every use.
- **6.2.** The battery is not designed to be removed.

# **ENVIRONMENT PROTECTION**

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

## **WEEE REGULATIONS**

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.
